

Maintenance Fluids for Wipers and Capping Stations

Compatible printers:

- Seiko Colorpainter 64s / 100s
- HP Designjet 8000s / 9000s / 10000s
- Mimaki JV3, JV5, JV33
- Roland SolJet (all models)
- Mutoh Rockhopper, Valuejet, Spitfire
- other solvent, mild solvent, eco-solvent printers

Capping station cleaner was designed to dissolve ink build-ups on the rubber caps and provide a better sealing of the print heads.

Wiper cleaning solution cleans and lubricates wipers to provide better wiping of the nozzle plates.

Proper and prompt maintenance of the capping and wiping stations of printers is critical for quality, consistency of output, and longevity of print heads. These cleaning solutions are recommended for anyone using an OEM or compatible ink.
